2.4 SCOPE OF WORK/SPECIFICATIONS

2.4.1 Network Design

District will consider traditional network designs or alternative proposals that, in accordance with E-rate guidance, maximize cost effectiveness. Proposers should clearly illustrate proposed network design and construction routes. District is not advocating or mandating any preconceived network design or construction route and leaves this decision up to Proposer to present their best solution while recognizing the cited termination locations.

2.4.2 Special Construction

In E-rate terminology, special construction refers to the upfront, non-recurring costs associated with the installation of new fiber to or between eligible entities. For leased fiber solutions requiring special construction, this means that the costs associated with building the fiber are considered special construction and the costs associated with the equipment required to activate the service are a standard NRC. Special construction and service eligibility for reimbursement have changed starting funding year 2016. See the Federal Communications Commission E-rate modernization order 2 (WC Docket No. 13-184) (<https://www.fcc.gov/document/fcc-releases-order-modernizing-e-rate-21st-century-connectivity>) for more information. Special construction charges eligible for Category One support consist of three components:

1. construction of network facilities
2. design and engineering

3. project management

If no new fiber is being installed, then any installation costs are considered standard non-recurring costs (NRC).

2.4.2.1 Special Construction Payment Plan Option

The District requests that the respondents consider allowing District to pay the non-discount share of special construction costs (portion of costs that are the responsibility of the District) to be paid in equal annual installments over two to four years. Responses must include agreement or non-agreement of this request.

2.4.2.2 Excess Fiber Strands for Special Construction Projects

To the extent that the winning Proposer installs additional strands of fiber for future business ventures, the winning Proposer assumes full responsibility to ensure those incremental costs are allocated out of the special construction charges to the district in accordance with FCC rules and orders.

If, after the issuance of the FCDL, USAC or the FCC determines that the winning Proposer did not cost allocate those charges associated with the additional strands, District will not be responsible for reimbursing the winning Proposer and the Proposer will assume all responsibilities deemed ineligible by USAC.

For examples of cost allocation, please see document in Attachment G as prepared by the State E-rate Coordinators' Alliance (SECA).

2.4.3 Leased Lit Fiber Transport

Applicant must have dedicated, symmetrical transport bandwidth of 10Gbps between the designated endpoints and must be scalable to 50Gbps.

If special construction is necessary, Proposers are required to complete Attachment B: Special Construction Worksheet.

No increased pricing of the quoted MRC, NRC, other fees and charges, and/or special construction in each pricing cell of the matrix will be allowed during the term. If an increase in bandwidth is requested during the Contract period, the Contract does not renew.

Proposers must be willing to add additional sites and/or increase bandwidth count to existing sites without extending the Contract duration and must be noted in the agreement.

Proposers must be willing to include optional 5-year Voluntary Extensions. Voluntary Extensions must be finite, non-automatic renewals, and identified in the awarded Contract.

All solutions must adhere to the following Service Level Agreement (SLA) terms in addition to the terms found in the Service Level Agreement section:

- Fiber Network Availability: the provider will make all reasonable efforts to ensure 99.99% network availability of each circuit
- $\leq 0.25\%$ frame/packet loss commitment
- $\leq 25\text{ms}$ network latency commitment
- $\leq 10\text{ms}$ network jitter commitment
- There is no right of service provider to limit or throttle the capacity of the circuit at any time for any reason
- Provider shall monitor service availability and proactively investigate and respond to identified service disruption
- Provider stated commitment is to respond to any outage within 1 hour and a 4 hour restoration of service.

2.4.4 Leased Dark Fiber Transport

Applicant must have two (2) strands (1 pair) of single-mode fiber from the hub to each eligible entity location.

If special construction is necessary, Proposers are required to complete Attachment B: Special Construction Worksheet.

No increased pricing will be allowed during the term of the quoted special construction, NRC, and MRC rate in each pricing cell of the matrix. If an increase in bandwidth is requested during the Contract period, the Contract does not renew.

Proposers must be willing to add additional sites and/or increase fiber count to existing sites without extending the Contract duration and must be noted in the agreement.

Proposers must be willing to include optional 5-year Voluntary Extensions. Voluntary Extensions must be finite and not automatic renewals and identified in the awarded Contract.

All solutions must adhere to the following Service Level Agreement (SLA) terms in addition to the terms found in the Service Level Agreement section:

- The provider will make all reasonable efforts to ensure 99.99% network availability of all leased fiber strands.
- Provider shall maintain the applicable fiber seven days per week, twenty-four hours per day.
- In the case that maintenance is subcontracted out to a 3rd party, the provider must hold and manage the subcontract and is ultimately responsible for the SLA.
- It is assumed that the dark fiber network is part of a more comprehensive fiber infrastructure of the service provider. The Proposer will include only the portion of maintenance that is required to support the District fiber segments versus overall network maintenance.
- Provider stated commitment is to respond to any outage within two (2) hours and thereafter proceed to correct the malfunction with reasonable diligence.
- The Proposer should include an overview of maintenance practices including:

1. Routine maintenance and inspection
2. Scheduled maintenance windows and scheduling practices for planned outages
3. Marker and handhole inspection and repair
4. Handling of unscheduled outages and customer problem reports
5. What service level agreement is included and what alternative service levels may be available at additional cost
6. What agreements are in place with applicable utilities and utility contractors for emergency restoration
7. Repair of fiber breaks and mean time to repair
8. Replacement of damaged fiber and fiber that no longer meets specifications
9. Post repair testing
10. Policies for customer notification regarding maintenance
11. Process for changing procedures, including customer notification practices
12. Process for moves, adds, and changes
13. Process for responding to locate requests

2.4.5 National Security

The Universal Service Fund (USF) National Security Rule [FCC 19-121](#) prohibits the use of USF funds to purchase or obtain any equipment or services produced or provided by a covered company posing a national security threat to the integrity of communications networks or the communications supply chain. By submitting a Proposal, Proposer is certifying the proposed infrastructure providing service delivery complies with FCC 19-121.

SECTION 3: PROCUREMENT REQUIREMENTS

3.1 MINIMUM QUALIFICATIONS

To be considered for evaluation, Proposal must demonstrate how Proposer meets all requirements of this section:

3.1.1 USAC Registration

All Proposers must be capable of providing telecommunication services under the Universal Service Support Mechanism, be a registered service provider with USAC, and have a USAC issued 498 ID (Service Provider Identification Number - SPIN).

3.2 MINIMUM SUBMISSION REQUIREMENTS

3.2.1 Proposal Submissions

To be considered for evaluation, Proposal must contain each of the following elements (further detailed in Proposal Requirements section below):

- Description of Proposal
- Service Level Agreement
- Timeline
- Demarcation
- Network Diagram
- Sample Contract
- References
- Cost Proposal Form (Attachment A)
- Special Construction Worksheet (Attachment B)
- Proposer Information and Certification Sheet (Attachment C)
- Responsibility Inquiry (Attachment D)
- Certified Disadvantaged Business Outreach Plan (Attachment E)

3.2.2 Proposal Page Limits

Proposal is limited to 50 pages. Any pages exceeding this limit will not be provided to the evaluation committee or considered in the evaluation. The RFP Attachments listed in the Proposal Submissions section do not count toward the page limit.

3.2.3 Proposal Format and Quantity

Proposal should follow the format and reference the sections listed in the Proposal Requirements section. Responses to each section and subsection should be labeled to indicate the item being addressed.

Proposer shall submit an electronic copy of the Proposal. The total combined size of the Proposal and Coversheet should be compressed so it does not exceed 50 megabytes.

The Proposer Information and Certification Sheet (Attachment C) must bear the Proposer's authorized representative's Signature. If Proposer believes any of its Proposal is exempt from disclosure under Oregon Public Records Law (ORS 192.410 through 192.505), Proposer shall submit a fully redacted version of its Proposal, clearly identified as the redacted version.

Proposer's electronic copy of the Proposal must be submitted via email and be formatted using Adobe Acrobat (pdf), Microsoft Word (docx), and/or Microsoft Excel (xlsx).

3.2.4 Authorized Representative

Failure of the authorized representative to sign the Proposal may subject the Proposal to rejection by District.

3.3 PROPOSAL REQUIREMENTS

Proposal must address each of the items listed in this section and all other requirements set forth in this RFP. Proposer shall describe the Services to be performed. A Proposal that merely offers to provide the services as stated in this RFP may be considered non-Responsive to this RFP and will not be considered further.

The State of Oregon established the Connecting Oregon Schools Fund for the purpose of providing matching funds for federal moneys received by school districts for the purpose of providing broadband access to eligible schools in Oregon. As a result, many districts may be issuing RFPs for fiber special construction. All Proposals to this RFP must independently meet the requirements set forth in this RFP without contingencies on other projects or proposals to other customers. A Proposal that does not independently meet the requirements as set forth in this RFP may be considered non-Responsive to this RFP and will not be considered further. Proposals may include additional Cost Proposal Forms (Attachment A) and Special Construction Worksheets (Attachment B) (if applicable) beyond the requirements as set forth clearly identified as contingent upon other projects or proposals. Additional submitted forms containing contingencies will not be considered during the evaluation process.

Proposal should not include extensive artwork, unusual printing, or other materials not essential to the utility and clarity of the Proposal. Do not include marketing or advertising material in the Proposal, unless requested. Proposal should be straightforward and address the requests of the RFP. Proposal containing unsolicited marketing or advertising material may receive a lower evaluation score if required information is difficult to locate.

3.3.1 Description of Proposal

Proposer will provide a description of their proposal for all services and solutions. Description will include an overview of the proposal, any deviations from the requested architecture, design or requirements, assumptions made, and other detail District may find useful or necessary (or could differentiate the solution from a competing proposal).

3.3.2 Service Level Agreement

Proposer will provide a proposed Service Level Agreement (SLA) with the RFP response. The proposal must include a description of the following services and how these services will be measured.

- Network operations center: Solution will provide customer support functions including problem tracking, resolution, and escalation support management on a 24x7x365 basis. District has the right and is encouraged to call concerning any problems that may arise relative to its connection with provided services.
- Trouble reporting and response: Upon interruption, degradation, or loss of service, District may contact service provider by defined method with a response based on trouble level. Upon contact from the District, the provider support team will initiate an immediate response to resolve any District issue. District will receive rapid feedback on trouble resolution, including potential resolution time.

- Escalation: In the event that service has not been restored in a timely manner, or the District does not feel that adequate attention has been allocated, the District can escalate the trouble resolution by request. A list of escalation contacts will be provided when implementation schedule is completed.
- Resolution: The District will be notified immediately once the problem is resolved and will be asked for verbal closure of the incident.
- Trouble reporting, escalation and resolution: A detail trouble reporting, escalation and resolution plan will be provided to the District.
- Measurement: Time starts from the time the District contacts provider and identifies the problem. Credits for outages of a certain duration or longer will be identified.
- Reports: Upon request, an incident report will be made available to the District within 5 working days of resolution of the trouble.
- Link performance per segment: The service will maintain the proposed link performance throughout the term of the contract.
- Historical uptime: Provide aggregate uptime statistics for your proposed service in the geographic area encompassing District.

3.3.3 Timeline

For each response, Proposers must include a timeline for bringing all sites online. Proposers requiring little to no special construction should be able to bring all sites online by the July 1 start of the funding year. For solutions requiring special construction, a schedule of bringing the service online must be included with an explanation of how this timeline shifts if the date of the E-rate funding commitment shifts.

3.3.4 Demarcation

All solutions must terminate service or infrastructure in the demarcation point at the addresses specified in this RFP. Solutions bringing service to the property line but not to the demarcation point will be rejected. Proposer must specify specific demarcation setup included in base fees and handoff medium (e.g., mounted CPE and CAT6a handoff, rack mount patch panel, single mode fiber, etc.).

3.3.5 Network Diagram

For each response, Proposers must include a network diagram displaying the paths to be used to serve each endpoint. Diagrams must show if the circuit is routed through any aggregation hubs, equipment, or third-party facilities between district site and point of presence. Proposers must disclose any shared infrastructure (if applicable) and describe mitigation strategies for potential risks.

3.3.6 Sample Contract

Proposer shall submit a sample Contract for District review.

3.3.7 References

Provide 3 references from current or former customers (preferably K-12) for similar projects performed for any clients within the last 5 years. References must be able to verify the quality of previous, related work.

District may check to determine if references provided support Proposer's ability to comply with the requirements of this RFP. District may use references to obtain additional information, or verify any information needed. District may contact any reference (submitted or not) to verify Proposer's qualifications.

Proposer shall submit reference names and contact information.

3.3.8 Cost Proposal Form

Proposer shall submit their Lowest Corresponding Price (LCP) (as required by the SLD 1996 Universal Service Order, 12 FCC Rcd 87, 383, para. 540).

3.3.8.2 Other Fees and Charges

Proposer shall include the total monthly other fees and charges (i.e., cost recovery fees, service charges, etc.) that are not taxes or charges assessed by government authorities. Other fees and charges are factored as part of eligible costs evaluation.

3.3.8.3 Estimated Assessed Taxes and Fees

Proposer shall include the estimated total monthly customer assessed or reassessed taxes and fees as established by government authorities (i.e., USF fees, franchise fees, taxes, etc.). Estimated assessed taxes and fees will not be factored as part of eligible costs evaluation.

3.3.9 Special Construction Pricing

Proposer shall complete and submit the Special Construction Worksheet (Attachment B) if special construction is necessary.

3.3.9.1 Special Construction Information for Form 471 and PIA Review

The awarded Proposer is required to promptly provide District with any information being requested as part of PIA review. Proposers may assist applicants with preparing funding requests or responding to PIA questions and may speak directly with PIA reviewers.

For all proposals that include special construction, the Proposer agrees to, by submitting its proposal, produce all construction labor, construction materials and other cost information requested during PIA review.

All proposals must agree, in writing, to this section with a yes or no answer. Answering no or failure to answer is grounds for disqualification.

3.3.10 Proposer Information and Certification Sheet

Proposer shall complete and submit the Proposer Information and Certification Sheet (Attachment C).

Failure to demonstrate compliance with Oregon Tax Laws and sign the Proposer Information and Certification Sheet may result in a finding of non-Responsibility.

- Proposal is conditioned on District's acceptance of any other terms and conditions or rights to negotiate any alternative terms and conditions that are not reasonably related to those expressly authorized for negotiation in the RFP or Amendment(s).

4.8 EVALUATION PROCESS

4.8.1 Responsiveness and Responsibility Determination

4.8.1.1 Responsiveness Determination

A Proposal received prior to Closing will be reviewed to determine if it is Responsive to all RFP requirements including compliance with Minimum Qualifications section and Minimum Submission Requirements section. If the Proposal is unclear, the SPC may request clarification from Proposer. However, clarifications may not be used to rehabilitate

a non-Responsive proposal. If the SPC finds the Proposal non-Responsive, the Proposal may be rejected, however, District may waive mistakes in accordance with OAR 125-247-0470.

4.8.1.2 Responsibility Determination

District will determine if an apparent successful Proposer is Responsible prior to award and execution of the Contract. Selected Proposer(s) shall submit a signed Responsibility Inquiry form (Attachment D) within 5 Business Days of receipt of Intent to Award notice.

At any time prior to award, District may reject a Proposer found to be not Responsible.

4.8.2 Evaluation Criteria

Each Proposal meeting all Responsiveness requirements will be independently evaluated by members of an Evaluation Committee. Evaluators will assign a score for each evaluation criterion listed below in this section up to the maximum points available in the Point and Score Calculation section.

SPC may request further clarification to assist the Evaluation Committee in gaining additional understanding of Proposal. A response to a clarification request must be to clarify or explain portions of the already submitted Proposal and may not contain new information not included in the original Proposal.

The following table represents an example of how a criterion worth 10 points may be scored.

SCORE	EXPLANATION
10	OUTSTANDING - Response meets all the requirements and has demonstrated in a clear and concise manner a thorough knowledge and understanding of the subject matter and project. The Proposer provides insight into its expertise, knowledge, and understanding of the subject matter.
6 - 9	VERY GOOD - Response provides useful information, while showing experience and knowledge within the category. Response demonstrates above average knowledge and ability with no apparent deficiencies noted.
5	ADEQUATE - Response meets all requirements in an adequate manner. Response demonstrates an ability to comply with guidelines, parameters, and requirements with no additional information put forth by the Proposer.
1 - 4	FAIR - Proposer meets minimum requirements but does not demonstrate sufficient knowledge of the subject matter.
0	RESPONSE OF NO VALUE - An unacceptable response that does not meet the requirements set forth in the RFP. Proposer has not demonstrated knowledge of the subject matter.

4.8.2.1 Ability to Support Requirements

Did the Proposer demonstrate the ability to fulfill the requirements per the RFP?

Did the Proposer provide a detailed project plan demonstrating the construction timeline and service availability?

4.8.2.2 Timeline to bring sites online

The E-Rate funding year begins on July 1, 2025. Did the proposer give a reasonable estimate the project could be accomplished? Does the timeline provide the least disruption to the school year for staff and students?

4.8.2.3 Proposed Contract Terms & Conditions

Are the proposed contract terms and conditions flexible and acceptable to the District?

4.8.2.4 Service Reliability

Did the Proposer demonstrate acceptable service reliability through proposed service level agreements?

Do the Proposer's references support the Proposer's reliability and response as outlined in the Proposal?

4.8.2.5 E-rate Ineligible Recurring and Non-Recurring Costs

Any costs of the proposed service that are not eligible for E-rate funding. This does not refer to the post-discount portion of eligible costs that are the responsibility of the District.

4.8.2.6 Scalability

Did the Proposer demonstrate scalability of the proposed technology through pricing for higher tiered bandwidths?

4.8.2.7 References

Did the Proposer submit complete contact information for the required number of references?

Do the references include K-12 education entities of similar size and scope?

How well would the references recommend the Proposer?

4.8.2.8 Proposal Completion

Is the Proposal complete and in compliance with the instructions and requirements as stated in the RFP with minimal corporate boilerplate marketing information?

4.8.3 E-rate Eligible Recurring and Non-Recurring Costs

Total cost of ownership considers all recurring and non-recurring costs. Note that E-rate eligible costs refers to the pre-discount cost of the solution, not the post-discount portion of costs that are the responsibility of the District. Estimated assessed taxes and fees will not

be factored as part of eligible costs evaluation. The SPC will conduct the E-rate eligible costs evaluation. The SPC will award a cost score to each Cost Proposal based upon the percentage of the proposed cost as compared to the lowest Proposer's cost using the following formula:

$$\text{TCO} = \frac{\text{Total Monthly Recurring Costs} + \text{Total Non-Recurring Costs}}{20 \text{ years}}$$

$$\frac{\text{lowest TCO cost of all Proposers}}{\text{cost being scored}} \times \frac{\text{cost points possible}}{\text{cost score}} = \text{cost score}$$

4.9 POINT AND SCORE CALCULATIONS

Scores are the points assigned by each evaluator. The maximum points possible for each evaluation item are listed in the table below. The SPC will average all scores for each evaluation criterion. Cost points are calculated as stated in the Cost Evaluation section.

POINTS POSSIBLE	
Ability to Support Requirements	20
Timeline to bring sites online	5

District will rank all Proposers at the conclusion of the evaluation and scoring.

SECTION 5: AWARD AND NEGOTIATION

5.1 AWARD NOTIFICATION PROCESS

5.1.1 Award Consideration

District, if it awards a Contract, shall award a Contract to the highest-ranking Responsible Proposer(s) based upon the scoring methodology and process described in the Solicitation Process section. District may award less than the full Scope defined in this RFP.

5.1.2 Intent to Award Notice

District will notify all Proposers in Writing that District intends to award a Contract to the selected Proposer(s) subject to successful negotiation of any negotiable provisions.

5.1.3 Required Notice to Proceed and Funding Availability

District will follow the purchasing policies of the District Board, State procurement laws and regulations, and requirements and procedures of the FCC's E-rate program as administered by the Universal Service Administrative Company to be eligible for all available funding. The implementation of any associated Contracts resulting from this competitive bid process will be dependent on District's issuance of a written Notice to Proceed. E-rate funding notification alone will not signify Notice to Proceed. The District will have the right to allow any associated Contracts to expire without implementation if appropriate funding does not come available.

Additionally, any projects requiring special construction may also be contingent on issuance of funds from the State of Oregon and Federal special construction matching funds. The District will have the right to allow any associated Contracts to expire without implementation if this specific funding does not come available.

5.2 INTENT TO AWARD PROTEST

5.2.1 Protest Submission

An Affected Offeror shall have 7 calendar days from the date of the intent to award notice to file a Written protest.

- Be delivered to the SPC via email
- Reference the RFP number
- Identify prospective Proposer's name and contact information
