ADDENDUM 1

Project: Erate Leased Fiber Services

Date: October 15, 2025

Invitation for Bid No.: 26-00-04

Owner: Medford School District 549C

Instructions to Prospective Bidders:

This Addendum forms a part of the Contract Documents and modifies the original Bidding Documents and prior Addenda as noted below. All conditions, requirements, materials and workmanship are to be as described in the Contract Documents unless specifically stated otherwise. This Addendum consists of one page.

General Notes:

- None

Bid Questions Summary:

- Q1: Would the Medford SD consider bids for only the transport connections between the ESD and the district hubs? Serving the other district locations would be expensive and we do not have fiber in place to provide an “all in one solution”. If it is a yes to the first question, the second question relates to conduit entrances into North Medford High School. We currently serve a cell site at the school, and the fiber path utilizes part of MSD’s conduit system. I was curious if you had a document that shows the conduit routes around the building so we can see if there is a vault entrance that routes to where the SD would like our fiber to terminate within the building.
- A1: The District will consider all bids that abide the Proposal Requirements (Section 3.3 of RFP document) to determine the most cost effective solution. If a partial proposal is submitted, please write “No Bid” on Attachment A for those line items. We do not have a document that shows the conduit routes at North Medford High School.
